Digital security starts with
Two-Step Verific🔒tion

Two-step verification (2SV) is a simple way to give your account an extra level of protection, by asking for extra authentication when you log in.

For example, a one-time passcode.

Enter Code

Username

Password

Login

Available for **email**, **online banking**, and **social media**.

Enhances security by making it **harder for hackers** to access accounts, protecting against:

Sometimes called **Two-Factor Authentication (2FA)** or **Multi-Factor Authentication (MFA)**

Fraud Risk

Identity Theft

Account Recovery Issues

Think your
account's been
hacked?

Report it to
Action Fraud
so that police
can take action.

Visit the **National Cyber
Security Centre website**
for support on recovering
your account and protecting
yourself in the future.
